

Quratulain Azhar

Aspiring Software Engineer

Personal Profile:

Software Engineer fresher with hands-on experience in ASP.NET Core, C#, Python, and full-stack development, backed by strong fundamentals in C++ and object-oriented programming. Passionate about building end-to-end applications with clean design and reliable data handling.

Contact Details:

Email: quratulainazhar22@gmail.com

Github:

<https://github.com/QuratulainAzhar22>

Technical Skills:

- Programming Languages: C++, C#, Python
- Web & Backend Development: ASP.NET Core, MVC
- Databases: MySQL, SQL basics
- Core Concepts: Object-Oriented Programming (OOP), File Handling
- Data Structures & Algorithms

Core Strengths:

- Problem Solving
- Analytical Thinking
- Ability to Learn New Technologies Quickly

Educational History:

Punjab University College of information Technology (PUCIT) | 2023-2027

BS Software Engineering (6th Semester)

Projects:

Library Management System

- Designed an OOP-based library system using C++
- Implemented MySQL database for books and transactions
- Integrated x86 assembly module for late fine calculation
- Applied PF concepts including file handling, loops, and menu-driven logic

Pizza Ordering & Delivery Web Application

- Designed and developed a full-stack web application for pizza ordering and delivery using ASP.NET Core MVC.
- Implemented role-based functionality for users and admin, including order placement, order management, and status tracking.
- Built responsive and user-friendly interfaces using Bootstrap 5 and backend logic in C#
- Integrated database operations for storing users, pizzas, orders, and delivery details.

Student Performance Prediction

- Implemented a basic Machine Learning mini-project in Python to predict student performance using simple features and supervised learning concepts.

Additional Information:

- Familiar with Python and basic Machine Learning concepts.
- Understanding of data preprocessing and ML workflows.
- Interest in integrating ML solutions with full-stack applications.
